

Grigna waterfall cardigan

Size	34	36	38	40	42	44	46	48
Dress size	10	12	14	16	18	20	22	24

Knit in **Yeoman Grigna** at T10 stocking stitch, with folded hems and edges at T9. I used about 190 g for size 38.

Tension is 5sts and 7.5 rows to 1 inch, or a tension square of 40 sts and 60 rows should measure 8 inches square.

Instructions:

1. Knit all pieces using diagrams on following pages

Tip for knitting: Grigna is a textured yarn which can be tricky to knit with, but at this tension stocking stitch is quite straightforward: however, it is important to weight it well, as it will get caught up easily. Also be sure to use waste yarn to start the cast on.

2. Join shoulder, armhole, sleeve and side seams. I used sewing thread, as I did not fancy sewing with Grigna.
3. Finish by picking up stitches from front edges, and knit a 6 row folded band.

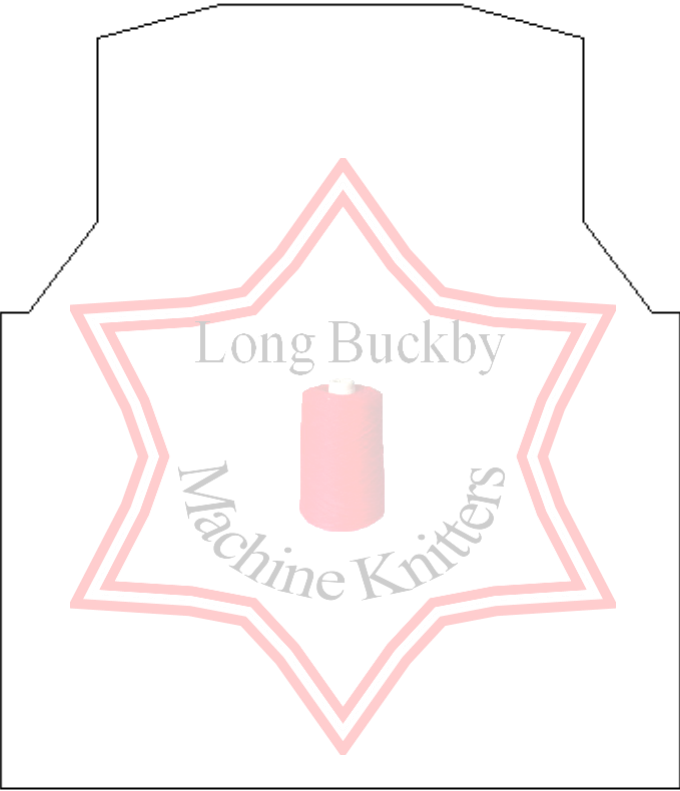

This cardigan looks much better on a person, fits quite snugly in a flattering way, and drapes very nicely. It is translucent, and would be good for evening wear, or a warm summer day.
